artist statement

God's masterful creation astounds and inspires me. I count the attribute of creativity to be one of His many precious gifts to humanity. I am given fully in love and admiration to His gift of art. It compels me to creatively rejoice in the mystery and majesty of His design.

Whether I am indulging in the joyous color explosion of my nature abstracts or tenderly rendering a precious moment of time in the classical style of the masters, I accept the challenge to capture the joy and magic of the beauty my eyes have witnessed and my heart longs to express. May you be inspired to create as well.

mission statement

There are so many things that clutter our lives. Most of us are saturated with sensory overload and find ourselves longing to reclaim some of the basic pleasures. In my personal journey of art expression I've made a pact with my sensibilities to reclaim these overcrowded areas of my life. I choose to create artwork that reflects the simple joys faith, family and love. I strive to live and love accordingly.
